

Calling All Yogi's

Little Yogi Warriors, Monday After-School Enrichment Program

Little Yogi Warriors Enrichment Program for Children utilizes storybook lessons, music, yoga games, nature, partner yoga, and imagination to inspire your children to explore creative poses to deepen awareness within their bodies and minds. We'll even get upside-down! All children love the release of making sounds. The Little Yogi Warriors program provides benefits on every level: balance, flexibility, fun, focus, peace, connection, health and well-being. All of these experiences can be imparted to children in an interactive and pleasurable way that creates the foundation for a life-long practice. Children will express themselves using their voices and through exploring their bodies in various creative postures. Their minds engage as they perform animal and nature asanas to deepen their awareness.

Monday, Program Details:
